WATER COMPANY ENJOINED.

An injunction was granted by Dis-
trict Judge Joe Jones of the Del Rio
District Monday, September 22,
estopping the Hondo Deep Well Com-
pany from discriminating in the mat-
ter of water rent collections. The
case was brought in Judge Jones' court
because the fact that Judge L.
J. Brucks of this district is a water
user disqualified him.

The complaint against the Com-
pany, which was made by a number
of citizens acting together, grew out
of the fact that the Company has
been charging water rent by meter
rates to some and by a minimum
flat rate against others. The effect
of the action of the court, so long as
it stands, is to force the company to
charge all alike on a flat rate until
it installs meters for all users.

So far as we are informed, the
Water Company's only answer to the
suit has been to give instruction to
its local manager to rush the installa-
tion of water meters. This doubtless
means that the installation of meters
will be completed much earlier than it
would have been had not the court
action been brought.

As to what if any effect this pro-
cedure will have on the more serious
complaint that water rates in Hondo
are too high and should be reduced,
this paper is not informed.

R. A. Carter and Horace Bradley
motored to Bandera, Medina Lake

week. Mr. Bradley says the water in
the lake is so low it is becoming foul
smelling and the fish appear to be
growing sick. A rain has not been
needed so badly since the dam was
constructed.

Mr. W. C. Scott, who is a farmer

the straw sold for \$110.00 per ton
F. O. B. at Hondo. This beats cot-
ton or corn or any other kind of crop
as broom corn is a drought resisting
plant.

Shipments for the past week from
the local station were 8 cars of corn,
2 of cotton, 2 of cotton seed, and 2
of mohair, which were sent to Boston,
Massachusetts. Shipments out since
September 1, 1930, were 14 cars of
cotton, 4 of cotton seed, 42 cars of
corn and 2 of mohair.

DID YOU EVER STOP TO THINK?

By Edson R. Waite, Shawnee, Oklahoma.

Now is the time when everyone should read the advertisements
in the newspapers before they buy.

The American people are a value-seeking public, and every alert
merchant is striving to give more for the money.

Merchants who sell quality for less are continuous advertisers.
They tell in their ads who they are, where they are and what they
have to offer for your consideration.

Modern merchants of today show by their advertising a sincere
effort to serve you well, advanced facilities, practical merchandising

MRS. THAD MILLER DEAD.

Mr. W. F. Miller informs an Anvil
Herald reporter that his sister-in-law,
Mrs. Thad Miller, died at Seguin late
Wednesday evening, September 24,
1930, and will be buried there this
(Friday) morning.

Deceased was an aged lady and
had been in feeble health for some
time. She and her husband, who sur-
vives her, were residents of Hondo
many years ago. She is a sister of
D. W. Short of this place and her
husband is a brother of J. W. and W.
F. Miller of this place also.

The family and relatives have the
sympathy of a large circle of friends.

ARCOS HEARING NOT YET SET.

Mention is made elsewhere of the
sanity hearing that has been grant-
ed Luz Arcos. In connection with
the matter, a report got into some of
the papers that he would be given a
hearing here at a special term of the
court October 6, but District Judge
Brucks is absent, holding regular
court elsewhere in the district, and
the Sheriff is without instructions in
the matter. Arcos is still at Hunts-
ville and the Sheriff has no order to
bring him into court nor has he been
authorized to summon any jury for
6th of October or any other date.

ANTI BLUES CLUB.

Misses Thelma Lynch and Janice
Holloway entertained the Anti Blues
Club on Saturday evening at the
home of the latter. After several
games of bridge Mrs. Melliff Lippold

and punch were served to Mesdames
Melliff Lippold, Al. Hutzler, Misses

Thelma Lynch and Janice Holloway.

A QUESTION.

The San Francisco Chronicle
points out editorially that since
the city recently purchased its
water system from the private
company, it has added 153 em-
ployees to the payroll at a total
cost of \$223,620. In taking over
the plant under municipal own-
ership it lost some \$400,000 a
year taxes which the private
company paid. This loss must
be made up by other San Fran-
cisco property.

Private business would have
to add these items totaling \$600-
000 annually, pay the cost of its
service or product, or meet such
charges through increased ef-
ficiency in management. Can or
will the San Francisco municipal
plant do the same?

SCHOOL NOTES.

The Medina County Council of P.
T. A. will hold its first meeting for
the 1930-31 school session, October
1, at Devine. A special program has
been prepared and outside speakers
have been invited to address the
Council. Delegates from P. T. A.'s
throughout the county have been
elected and all are urged to attend.

The rural high schools of Medina
County are adopting the courses of
study used in the Independent High
Schools of the County, thus affording
those children who wish to attend
affiliated high schools a better chance
to pass the examinations that are
sent out from the State Department
of Education each year in April.

Mr. Otto W. Huegele of Rio Me-
dina reports to County Superinten-
dent W. N. Saathoff that since the
consolidation of the Yellow Banks
and Rio Medina schools, a better
system has been introduced with a
large attendance of pupils and a
splendid, growing school is the
result.

The Castroville Public School has
added a new department to its pres-
ent system and added a fourth teach-
er to the faculty. With the purchase
of four modern L. C. Smith typewrit-
ers and with Miss Lucille Monkhouse
as instructor, a course in commercial
art has been adopted for the advan-
tage of the pupils.

All news of the rural schools of
Medina County would be greatly ap-
preciated if reported to this column.
Let the County know what your
school is doing for education.

STOUT-DECKER.

A wedding of interest to many
friends at Hondo and other points in
this section was that of Miss Clara
Decker of Hondo, charming daughter
of Mr. and Mrs. Louis Decker, to
Walter Barryman Stout of San An-
tonio, which was solemnized in the
beautiful ranch home of the bride's
parents Saturday afternoon at five
o'clock in the presence of only the
immediate family. The impressive
marriage lines were read by
Rev. H. A. Heineke, pastor of St.
Paul's Lutheran church.

The bride wore a smart brown
crepe ensemble with brown acces-
sories. Mr. and Mrs. Stout left for
a short trip and upon their return
they will make their home in San
Antonio, where Mr. Stout is a prom-
ising attorney.

TO MEMBERS PEOPLE'S BENE- VOLENT ASSOCIATION.

There will be a meeting of mem-
bers of our Association at Hondo
Chamber of Commerce Hall at 2
o'clock P. M. Saturday, September
27, to discuss very important mat-
ters. Do not fail.

LOOK OUT FOR THE TAX COLLECTOR.

In 1913 the aggregate cost of
government—Federal, State and
local—was \$135 per family. In
1929 it was \$460.

One of each eleven families
now draws its support from the
government. According to a
searching survey, the waste of
local units of government alone
totals more than half a billion
dollars a year, or ten per cent of
their expenditures.

The tax collector will continue
to tighten his grip on the Ameri-
can pocketbook until the public
uses its power to stop increasing
taxes and adding to public em-
ployes.

TEXAS AND TEXANS

TEXAS AND TEXANS.

By Will H. Mayes.

"All Texans for All Texas"

Farmer Beats Low Price

An Anderson county farmer made
some calculations and found that
some home-grown products for which
he could have received but \$8.80
were worth \$20.00 when canned with
an ordinary home canning outfit.

Luncheon Club Helps

The Kiwanis Club at Wellington
recently went wholeheartedly into
helping the County Home Demon-
stration Clubs in making a great suc-
cess of a "Home Products Week."
Merchants co-operated by allowing
use of their show windows for dis-
plays.

Bandera Celebrates

When Bandera celebrated the 75th
anniversary of the town's settlement
there were nine of the original set-
tlers present and more than 200 who
have lived in the county for more
than 50 years. Editor Hunter of the
New Era and Pioneer Progress, a
foremost Texas historian, gave a
sketchy talk about early days around
Bandera.

Profitable Pullets

A Henderson farmer, who grows
chickens and markets eggs as a side
line, has found that he made a net
profit of \$526.70 from 370 hens
from January 1 to September 1. It
is safe to bet he didn't make that
much profit on his cotton crop.

Thanking Them

The Uvalde Leader-News and its
employees ran a card in the paper,
thanking the county and city officials
for giving the Leader-News the print-
ing of county and city tax receipts
"Which have heretofore been sent
out of town." Wonder how many
officials are sending out of their
home towns for official printing?

Constructive Movements

This feature of this paper is sup-
plied regularly in the belief
that they are interested in matters
of a constructive kind going on
throughout Texas and that they want
to keep informed as to Texas pro-
gress. Every movement that helps
any part of the State is helpful to
every citizen of Texas; everything
harmful to any part harms the en-
tire citizenship. Even in a State as
large as Texas, whether they will or
not, the people must keep step in the
march of progress. Failing to pro-
gress stops it does not stand still but
goes backward. Texas is looking for-
ward not backward, with immense
projects under way and still greater
undertakings being planned.

Trinity Navigation

In times past some have been in-
clined to smile at mention of the pos-
sibility of navigating the Trinity
river to Fort Worth. Advocates of
the project have all along stuck
tenaciously to the movement despite
ridicule and criticism. To canalize
the river will cost the Federal govern-
ment from \$30,000,000 to \$50-
000,000, but the saving in freight
rates to Texas and southern Okla-
homa will be approximately \$20,000-
000 a year, according to estimates of
experts who have studied the matter
closely. There should be no hesita-
tion by the government in financing
a movement that gives promise of a
return to the people of from 40 to
60 per cent a year. If undertaken
now the work would give large relief
to the unemployment situation.

Guadalupe Canalization

Another government project of
perhaps equal importance is the
canalization of the Guadalupe river
to Cuero. A survey of this project
is under way, and according to fig-
ures already obtained there would
be millions of tons of freight avail-
able for such a canal and the saving
to the people of Central and South
Texas would be as much proportion-
ally as would be saved to North and
East Texas by the Trinity canaliza-
tion. The cost of these undertakings
should not stand in the way of the
work, when it can be shown that the
country will profit so largely.

Quick Action Wanted

If it is possible to get the Inter-
state Commerce Commission to hurry
up consideration of the proposal of
the Texas-Pacific to build a 333 mile
line north from Big Spring to Lub-
bock, Amarillo and other points in
the Panhandle, the people along the
proposed route are going to have it
done, having named committees for
that purpose. The estimated expendi-
ture will be about \$13,000,000 and
the advantages of a large Texas
territory can hardly be approximated.
Employment would be given to thou-
sands of laborers who need the work
as badly as that section needs the
railroad.

Big Bond Issues

During the fiscal years ending
August 31, the Attorney General's
Department approved \$88,229,000 of
bonds of all kinds, these being most-
ly county, district and municipal
bonds, the money to be spent for
civic improvements. This represents
but a part of the public work that
is being done in Texas, from which
business of all kinds is profiting.

Eagle Pass Irrigation

The \$7,000,000 irrigation project
near Eagle Pass is going forward
rapidly, the excavation work being
pushed by the use of several huge
machines. When the canals, reser-
voirs and power plant are completed
and a supply of water is stored, the
drouth problem will be settled for a
large area near Eagle Pass.

Big Truck Returns

The Lower Rio Grande Valley,
during the season just closed, snip-
ped 28,113 car loads of fruits and
vegetables, from which it is esti-
mated that \$22,000,000 was received.
That is "big business" for the three
counties that comprise "The Valley."

Not Begging Help

At least four Texas counties re-
ported as "drouth-stricken" have
asked to be taken off the list seek-
ing outside relief. They are Potter,
Hempill, Gray and Jeff Davis. They
say that their crops are in good
condition and that they are not in need
of aid and are not asking it. A
number of counties listed as "suf-
fering" have joined the applicants
for relief merely to get advantage
of the one-third reduction in freight
rates on feedstuffs and cattle, offer-
ed to distressed sections, and as ad-
joining counties are securing the re-
ductions, these are not to be blamed
much for seeking the same rates even
though it is a bit hard to be classed
as "drouth sufferers."

Drouth Relief

So far the only "drouth relief"
received in Texas has been the re-
duction of freight rates on feed and
livestock and the assurance that the
Federal intermediary credit bank at
Houston will supply "eligible incor-
porated banks, credit corporations,
livestock loan companies and other
financial institutions" with money to
be loaned on "sound business policies"
at not exceeding 2 and 2 1/2 per cent
above the discount rate of the inter-
mediate credit bank, which is now 4
per cent. Under some conditions the
Red Cross will undertake to supply
distressed farmers with seed for
planting crops.

Feed Crop Helps

The least complaints of hard times
are heard in those sections where suf-
ficient feed crops have been planted
and grown. The farmer with plenty
of feed for stock, even though his
cotton crop may be ever so short,
finds himself "fixed" for temporary
drouths likely to occur anywhere.
Farmers should hedge against short
feed crops by storing enough for at
least a year. Fortunately fall rains
in most parts of Texas are early
enough to insure good winter pastur-
age either from native or from sown
grain fields.

Calf Draws Big Prize

According to the DeLeon Free
Press a calf from DeLeon, too young
to be registered, drew \$600 in prize
money at the Aurora, Ill., fair recent-
ly. It costs no more to feed prize
winning animals than scrubs. The
difference is in the breeding and the
attention given them.

Truck Permits Cancelled

Thirty truck permits were cancell-
ed by the Railroad Commission re-
cently because of failure to file in-
surance renewals. People who use
the roads would be glad to have the
permits cancelled of all trucks that
persistently "hog" the center of the
roads and force private cars to the
roadside.

Civic Improvements

Point Isabel isn't much for size
yet, but is going to be an important
Texas port some day and will get
ready for it by voting a \$350,000
bond issue for construction of a
sanitary disposal plant, city hall, jail
waterworks system, concrete reser-
voir, street improvements, sidewalks
and parks—things without which
small towns can't well grow into
cities.

Making Tomatoes Pay

A Gonzales county farmer plant-
ed 16 acres of sand land in tomatoes.
The crop was grown and marketed in
five months. He kept books and
found that he had made \$1,095 clear
from the tomato crop, while carrying
on other farming interest and operat-
ing a dairy at the same time.

Building for Future

Ozona has growing pains and will
vote on a bond issue of \$170,000 for
a new high school building to re-
move the crowded condition of the
present building.

GEESSE TURN WASTE LAND INTO DOLLARS.

By Juliette Frazier.

Unfortunately on many farms there is some land which is under water the greater part of the year, and during the summer when finally it dries, the ground bakes so hard that it is impossible to raise any sort of crop on it. Many farmers use land of this sort for pasturing some of their stock; but stock pastured on such land seldom do well, because the kind of grass which generally grows in these swampy places is not suitable for stock feed. The best way to utilize land of this description is to fence it off and turn it into a pasture for geese.

Two years ago when I faced the problem of utilizing four acres of land, which up to that time had been unproductive on account of being too swampy to raise any crops on it, I decided to fence it off and turn the geese on it.

The upper portion of the field, which had better drainage than the lower section, was plowed and sown to rape. About three-fourths of an acre of rape, supplied my fifty geese with plenty of feed from early spring until late fall.

The field which the geese had previously occupied comprised about three acres of fertile soil. This field, after having been cultivated, was sown to barley.

The result was that the following summer 123 bushels of barley were harvested from this three acre tract, while the geese were getting along very well upon the land which previously had been useless. In fact, they got along even better than they did in their former pasture, because this field was a greater distance from the road and the house.

Geese are naturally grazing birds. They require little else besides plenty of green grass, and they are not at all particular. If the field or pasture is quite a distance from the house so much the better. The more seclusion geese are provided with, the more contented they will be. Geese require privacy. They hate to be disturbed. This is especially true during the laying and hatching season. Since my geese have been removed to a quieter and more secluded place, they have not only laid more eggs, but have hatched almost as many goslings as there were eggs.

Taking into consideration that last year, after the geese were turned into their new pasture, I raised almost twice as many goslings as I did the previous years from the same number of settings, and that at marketing time I realized an increased profit of \$150, proves that geese can turn waste land into dollars.

SOME TIME.

Some time, when all life's lessons have been learned, And sun and stars forever have set. The things which our weak judgment here have spurned, The things o'er which we grieved with lashes wet, Will flash before us, out of life's dark night. As stars shine more in deeper tints of blue, And we shall see how all God's plans were right, And how what seemed reproof was love most true.

And we shall see how, while we frown and sigh, God's plans go on as best for you and me; How, when called, he heeded not our cry,

Because his wisdom to the end could see, And even as prudent parents disallowed Too much of sweet to craving babyhood,

So God, perhaps, is keeping from us now Life's sweetest things, because it seemeth good.

And if, sometimes, commingled with life's wine, We find the wormwood, and rebel and shrink,

Be sure a wiser hand than yours or mine Pours out the potion for our lips to drink.

And if some friend we love is lying low, Where human kisses cannot reach his face,

Oh, do not blame the loving Father so, But wear your sorrow with obedient grace.

And you shall shortly know that lengthened breath Is not the sweetest gift God sends his friend,

And that sometimes the sable pall of death Conceals the fairest boon his love can send.

If we could push ajar the gates of life, And stand within and all God's workings see,

We could interpret all this doubt and strife, And for each mystery would find a key.

CHEVROLET ON AIR.

An outstanding event in the automobile industry will take place within the next few weeks when the Chevrolet Motor Company goes on the air over more than one hundred radio stations throughout the country in the first of a series of weekly programs to continue late into the Fall, R. K. White, advertising manager, announced Saturday.

The radio campaign is in addition to all other forms of promotional activities such as newspaper, magazine and outdoor advertising, Mr. White said.

Each week there will be presented the personally-narrated experiences of prominent American war veterans who have received the highest honors within the power of the government to bestow for valor in action. Captain E. V. Rickenbacker, ace of American aces, will act as host to the heroes and will introduce them to the air audience. Each program, to be known as the "Chevrolet Chronicles," will be of a half hour's duration.

The first of the series will be presented early in October, Mr. White said. Local dealers will sponsor the programs in their localities, with the co-operation of the factory. Because of the extent of the dealer organization, between 110 and 120 radio stations will be used to get complete national coverage reaching into the territories of every one of Chevrolet's 10,000 dealers.

let's 10,000 dealers.

The character of the programs was determined upon, Mr. White explained, after extensive research for a type of air entertainment which would render a real national service as well as prove instructive and entertaining. In presenting the experiences of war veterans, Mr. White pointed out that these programs will be furthering the general appreciation of those qualities of patriotism, heroism and self-sacrifice which go to make up the typical soldier.

The campaign also links the Chevrolet Motor Company with those organizations which are adding impetus to the movement to revive general conditions by putting extraordinary effort into their advertising activities.

PUBLIC AGAIN WARNED NOT TO EAT RAW PORK.

Reports that trichinosis has caused the death of three persons and illness of 30 other residents of Reading, Pa., recently has led the United States Department of Agriculture to renew its warnings against eating raw pork. In Reading the disease was the consequence of eating raw-pork sausage.

Trichinosis is produced by a minute, parasitic worm that infests the meat of swine without noticeably injuring the animals. This minute worm is taken into the human body by eating raw or undercooked fresh pork. In the human body these

worms, or trichinae, produce a disease known as trichinosis, which somewhat resembles typhoid fever. Trichinosis is a painful and dangerous disease which does not respond to treatment. All fresh pork in whatever form should be thoroughly cooked to make it safe.

Leaflet 34-L, "Trichinosis," prepared by the United States Department of Agriculture to explain this disease and methods of avoiding it, is available free to anyone requesting it.

Keep On the Go

The tortoise was slow; the hare was fast, But the tortoise won the race at last And so we find it in this day, Some folks fool around the very same way. A man can win even though he be slow, If he saves his money, keeps on the go; While another man as foolish as the hare, Keeps spending his money and gets nowhere. "Yes. I refused you in words, I know, but actions speak louder."

"But when you told me you were engaged what could I honorably do?"

"More—very much more—than you can do now. You could have shown me my mistake. How much better to have learned it then, from you, than later, by my own experience! You could have swept me off my feet, just as Frank did. You did nothing. If I had sought evidence to prove how impractical you are, as compared with my super-practical husband, I would have found it in the way you handled, or rather failed to handle, that situation."

YOUNG FRIEND, LISTEN.

There never was such a real necessity for a young person getting a business education as at the present time. Money is not easy to get. We have all been forced down to a new low level of living. We must work up economically from this new level. We can't buy a new automobile, or take an expensive university education. We must first get a real cash producing education that will not cost much and one that will enable one to accumulate the money necessary to buy the things one would like to have.

A business education secured at a Byrne College will pay you greater returns for the small amount of time and money invested than anything else. Any ambitious young person can get a cash producing education at a Byrne College, for all five of them are located in large cities: Dallas, Houston, San Antonio, Fort Worth and Oklahoma City, where you can, if necessary, get spare time work to pay board and room while in school and a good position when you graduate and if you haven't enough money to pay for a scholarship there are many ways to overcoming that. There is usually, about home, something that can be sold or used to secure a loan, a life insurance policy with a cash loan value available, or a loan can be obtained at a bank or through a student loan fund of a Rotary Club, Lion's Club, or woman's clubs, etc., or you can get some relative or friend who will be only too glad to have the pleasure of helping you get a good business education and make a real success. They wouldn't lose anything or you for you would pay them back with interest after completing your course and going to work. Hundreds of our former students borrowed the money to buy their scholarship and thereby qualified for the splendid position they are now holding. Young friend, a business education means everything to you, your independence. A business education is a single premium life insurance policy, that pays you monthly dividends throughout your life—GET IT and get it NOW. Remember Byrne Colleges guarantee the most thorough and complete business training and place you on the payroll in half the time and at half the cost of others.

D'HANIS ROAD IS NOW OPEN FOR TRAVEL.

The three mile stretch of unpaved road between Sabinal and D'Hanis has been referred to as a three-mile nightmare. It has long been the hope of motorists who travel the San Antonio-Del Rio highway that this piece of road would some day be paved. At last the work is being done.

The new road does not follow the route of the old road, but follows more closely the railroad. The dangerous crossing at D'Hanis has been eliminated by an underpass about a mile this side of D'Hanis.

The grading crew has finished its work, the bridges are all completed, and the road is ready now for the rock that is to serve as a base for the asphalt top. The road is open to the traveling public while the setting process is going on and while awaiting the application of the rock.

The road, even in its uncompleted stage, is being much traveled, as it is now much better than the old road and motorists are grateful for change.

The completion of this new three mile piece of road will make the highway one piece of pavement from San Antonio to Uvalde, and there is much pavement between Uvalde and Del Rio. It is the hope of motor travelers that all this will be paved in the not too far distant future.—Sabinal Sentinel.

A BUSINESS CHANGE.
The American Telephone and Telegraph Company has completed negotiations for the purchase of the Bell Telephone Corporation by an exchange of 150,000 shares of the common stock of the two corporations, share for share, according to word received today by Mr. T. A. Stevenson, District Manager of the Southwestern Bell Telephone Company. The purchase will be effective October 1.

A new survey of the Bell System's future needs for this type of apparatus indicates that it will continue to require a major portion of the telephone production. A maximum production and economy will be realized through the complete co-ordination of research, development and manufacture as a result of the purchase. The Telephone Corporation will be operated as a subsidiary of the Western Electric Company.

ARCOS TO HAVE SANITY HEARING.

AUSTIN, Tex., Sept. 18.—Luz G. Arcos, who was under sentence to be electrocuted early Friday morning for murder in Hondo, has been temporarily saved from death in the electric chair by a writ of habeas corpus granted by President Judge W. C. Morrow of the Court of Criminal Appeals and a 30-day reprieve granted by Gov. Dan Moody. Under the habeas corpus writ Arcos must be produced in the Medina District Court before October 17, for a hearing on the issue of insanity.

Arcos, who killed Luciano Barrientes, 68, a Hondo grocer, and his two sons, Joe and Elifonso, on Christmas Day, 1928, will be tried to determine his sanity. It is alleged that he is insane, an affidavit having been filed by Dr. Douglas Largen of San Antonio that he believes that Arcos has become insane since the trial of the case.

Judge L. J. Brucks of the 38th District Court, has set the case for hearing on January 9. The Statute provides that insanity cases shall be set for hearing at the next term of court. The next term of the 38th District Court opens on the first Monday in January, 1931.

In consultation with the governor upon the anomalous condition presented in the case, he has indicated, Judge Morrow said, that he expressed his willingness to the district judge to order the execution delayed providing the district judge would make an order to the same effect.

The habeas corpus writ issued restrains the warden of the State penitentiary from carrying into effect the warrant of execution against the accused, and that he produce him before District Judge Brucks at such time and place as Judge Brucks may direct before October 17 to the end that Arcos may be tried on the issue of insanity.

Judge Morrow in his order said that the Constitution of Texas declared that in all criminal prosecutions the accused shall be given a speedy trial and the statutes declare that after conviction of crime the execution of the sentence shall be delayed if the accused, on a trial provided by law, is found to be insane.

"It may be conceded," he said, "that the habit of filing last minute affidavits declaring one condemned to die insane is an evil that might properly invoke legislative attention, but while the statutes remain intact obedience thereof in good faith is incumbent upon the courts. Whether the judges of this court, in vacation, have the power of enforcing an order delaying the execution of the accused upon the facts before it may be open to question. If such power does exist the facts in hand clearly demand its exercise. The members of this court, however, are of the opinion that the trial of the accused upon the issue of insanity should not be delayed longer than necessary and that it can be tried at a special term of court it should be done."

This is the second reprieve granted Arcos by Governor Moody. The first was granted at 10:30 P. M. September 11, on application of Father Finnegan, Catholic priest at the State penitentiary. The execution had been set for early of the morning of September 12. The reprieve was for one week. Father Finnegan informed Governor Moody that Arcos had not made peace with his God and asked further time to work for a spiritual settlement.

Prior to the granting of the reprieve the governor had announced that he would not interfere in the case as the State Board of Pardons had made an adverse report. Barrientes and his sons were shot and killed a few days after Arcos had returned to the store a bottle of milk which he claimed was sour. The killings occurred in the grocery store.

Arcos Thanks All
HUNTSVILLE, Texas, Sept. 18.—Notified that Governor Moody had postponed his execution for a month to allow a sanity trial, Luz G. Arcos, convicted Medina County slayer, broke his silence this afternoon to say "I'm awful thankful to everybody."

Twice, now, last minute clemency has come. Arcos, convicted of killing Joe Barrientes of Hondo on Christmas Day of 1928, was to have been executed a week ago tonight but only a few hours before the time Gov. Moody telephoned a week's respite at the request of a priest. Today the man was again close to death when the reprieve was granted. He would have been electrocuted shortly after midnight.

Barrientes, according to witnesses, was slain over an argument concerning a bottle of milk sold to Arcos' son, which Arcos contended was sour. Barrientes' brother, Elifonso, and his father, Luciano, 68, also were killed in the fight.

SPORTSMANSHIP.

From the Owl.
Our entire life is but a game or as
Shakespeare called it, a play, and
throughout that game good sports-
manship is absolutely essential.

What is a school in which every
student has no thought for anyone
but himself or any other phase of this
game where no consideration is
shown?

School athletics tend to build up
sportsmanship, but when a boy or
girl finishes school and is "on his
own," his struggle for success may
make him forget that essential.

So let us every one be a little more
considerate by showing good sports-
manship and make this old world a
better place to live in.

Moras Troop No. 14 of
 the three old Ford Trucks. They
 are going on any hike anywhere,
 they are real proud of it. We
 have that other material like this on
 the local troops. A group of boys
 spend many hours at work on a
 unit truck like this and will
 wear their merit badges in auto-
 mobile and machinery.
 The Rio Scouts had a fine
 rally last Thursday. Forty
 Scouts and Scouters were the guests
 of E. K. Fawcett at his
 residence miles above Del Rio,
 on the Devil's River. They left the
 city at five o'clock, spent the morn-
 ing swimming and exploring
 many points of interest in this
 beautiful canyon. After a splendid
 breakfast prepared by one of the ranch
 men, Louis Jacobs, consisting of
 well cooked meats, pears, pickles,
 coffee and ice water, and after
 the boys' appetite was satisfied in
 the way, we all hiked to the cave
 which Mr. Fawcett lived during
 the years of 1883-84 as a young
 man in charge of some herd
 and a large herd of sheep. We
 had to appreciate our resident
 because of the fact that he had
 been a real pioneer in developing the
 west.
 While we were sitting around in
 the cave near Dolan Falls, one
 of the beauty spots of this section,
 Fawcett told of his pilgrimages
 to the town of San Antonio, Cas-
 trolville and Del Rio and the
 up the Devil's River to the
 Dolan Creek. Mr. Fawcett
 an orphan lad of 18, weighing
 thirty pounds, yet he braved the
 and the hardships of this
 trip west, receiving as wages
 \$30.00 a month. After he had
 a year in this lonely camp, he
 got out for a little excitement,
 to Del Rio with his boss and
 his first real gun, a rifle.
 He went back to camp, he spent three
 and a half without ever seeing
 except the very few human
 connected with theirs and the
 ending camps. During Mr. Faw-
 cett's story, it was interesting to
 the influence of other men on
 Fawcett's character and life,
 the impression left by one
 religious character, a Dane, who
 lived in the Divine Providence and
 ship. After Mr. Fawcett's em-
 had taken his sheep and gone
 parts, Mr. Fawcett took his
 and bought cattle, and sad-
 on his young shoulders a debt
 of \$100.00, which took many years
 labor to pay; but in that be-
 he came to own this large
 of more than 56,000 acres.

OUR CREED.

Keep us, O God, from pettiness!
 Let us be large in thought, in word,
 in deed.

Let us be done with fault-finding,
 and leave off self-seeking.

May we put away all pretence and
 meet each other face to face without
 self-pity and without prejudice.

May we never be hasty in judg-
 ment, and always generous.

Teach us to put into action our
 better impulses, straight-forward and
 unafraid.

Let us take time for all things,
 make us grow calm, serene and gen-
 tle.

Grant that we may realize it is
 the little things that create differ-
 ences, that in the big things of life
 we are as one.

May we strive to touch and to
 know the great common woman heart
 of us all, and let us not forget to be
 kind.

FAIRS.

The cities may have their talkies
 and their marathon dances, but the
 country has its fairs.

Without passing judgment as to
 which may be the better form of
 attraction, observes the research de-
 partment of the National Association
 of Farm Equipment Manufacturers,

there is no denying that the fairs,
 county, district or state, offer both
 the city man and the farmer a me-
 dium of recreation, pleasure and ed-
 ucation that performs a real service.

For the fair is not all red lemon-
 ade, hot dogs and "hoss races."

Where is the farm woman who
 does not feel a justifiable thrill of
 pride when the ribbon is placed upon
 her needlework, or her culinary pro-
 ducts? Where is the farmer who does
 not experience a glow of satisfaction
 when his livestock entry is judged a
 winner? And rightly so!

This year, as in the past, not the
 least valuable feature of the fairs
 will be the display of equipment for
 the field and the farmstead, of inter-

est both to the man who is seeking
 to save time and labor in his opera-
 tion, and to the woman who sees
 what home conveniences have meant
 to her neighbors.

Fair-time is time for renewing old
 friendships and for making new ones,
 for talking politics, crops and busi-
 ness. But it is also a time for check-
 ing up on developments that may
 mean dollars and cents in farm op-
 erations next year.

DANGEROUS.
 The sweet young thing was at her
 first football game. One of the blues
 dropped back and hurled a forward
 pass. It missed the out-stretched
 hands of the right end by inches. The
 sweet young thing heaved a sigh of
 relief and said, "Thank goodness! I
 was so afraid that boy would be hit
 by that great big ball."

CASTROVILLE, TEXAS, WEDNESDAY, SEPT. 24, 1930.

It was learned that the Medina Irrigation Company is planning to set a large pump in the river, near the diversion dam for the purpose of supplying their irrigation ditch with water. A mass meeting of the citizens of Castroville and the Medina Valley in general was called and held at Wernette's Garden and plans were discussed and adopted to prevent the company from executing their plan.

Oscar De Montel is spending a week in San Antonio.

A most deplorable collision of two cars happened at the intersection of two streets running west and north, wherein a lady from San Antonio was hurt and severely bruised. Both cars were damaged. An ambulance carried the injured lady, her husband and other companions to San Antonio.

Mr. Joe Echtle visited his friend, Judge Peter Hoog at the Hondo Infirmary Sunday.

A THOUGHT FOR SUNDAY

By
AMOS R. WELLS.

POLICING THE AIR.

The government is building in Nebraska what will be the greatest of all radio stations in the world. It will occupy fifty acres, and in it, besides executives and clerks, thirty electrical engineers will have their quarters, their duty being to govern twenty thousand transmitting stations and to protect the listeners by holding each station to the wave lengths and power limits assigned it, so that it will not interfere with other stations.

If we think this is magnificent, if it passes our understanding, what do we think of the Central knowledge of the universe, of that Power who sees all and knows all and communicates with all and controls the destinies of all? If we can not understand how this mysterious influence can enter every home on the viewless air, and speak to every ear at once, and present scenes to every eye, let us remember that radio is only one of the endless creations of our God, and let us wonder and adore.

"Jehovah, his throne is in heaven, his eyes behold, his eyelids try, the children of men."

BRIDGE CLUB.

The charming hospitality of Mrs. E. A. Rothe was enjoyed last Wednesday afternoon by the members of the club when she entertained at bridge.

Mrs. Joe Williams received a lovely hand painted bowl for high score prize. Mrs. Ed. Ringer was awarded a towel set for cut prize and Mrs. John Zinsmeyer was given a thimble for low.

Delicious refreshments of frozen salad, pimento sandwiches, devils food cake and iced tea were served. The members and guests present were Mesdames John Rieber, Ed. Finger, John Zinsmeyer, M. J. Finger, Joe Williams, Fred Rock, Henry Nehr, A. M. Rath and Wm. Finger and Misses Tina Rothe, Cornelia Koch and Agnes Rothe.

PARENT-TEACHERS ASSOCIATION.

The first business meeting of the D'Hanis Parent-Teachers Association, was held at the school house Friday afternoon, September 19. Mrs. A. J. Boog, the president, called the meeting to order and after the usual routine the treasurer reported a balance on hand of \$20.65. She also reported the payment of a balance on some playground equipment.

Prof. Scott then gave an interesting outline of the improvement of the school this year and the further needs of it. Another teacher was added to the High School section as a result of consolidation and the school has been arranged so as to provide a study hall, thus giving the children the advantage of supervised study. Prof. Scott is working hard to obtain some affiliations for the school this year. The most necessary things needed by the school are supplies for the playground, since all the children will be required to take some part in the playground games. The children are being trained to meet teams of other schools and are working to take part in the Interscholastic League that is held in the Spring. The mothers were eager to supply what is needed for the playground now.

Arrangements were made to have delegates at the Medina County Council and if possible to have the teachers attend.

Much to the regret of the club, Mrs. A. J. Boog offered her resignation as president of the club. In a few well chosen words she explained how her domestic duties prevented her from doing her utmost for the club. Mrs. Ferd Rock was nominated to take her place as president and was unanimously elected. Mrs. Rock

is thoroughly interested in school work and will prove an able leader for the community.

Prof. and Mrs. Scott, Mrs. J. P. Ephraim and Mrs. John Batot were added to the membership list.

The date of the regular meetings of the club are to be held from now on the first Friday of the month instead of the last. As a result the next meeting is to be held Friday afternoon, October 3. All members are requested to be present.

The other Eagle badge is to be presented to Scout Billy Swearingen at the next Court of Honor in Uvalde, and the other Eagle Palm Badge will be awarded to Billy Burdett of Leakey.

MR. N. R. DANIEL.

"I suffered from rheumatism for four or five years," said Mr. N. R. Daniel, 808 East Arlington street, Fort Worth. "This settled in my leg and hips and I became so stiff that I walked with a limp. I could not stoop sufficiently to put on my shoes. Later I became afflicted with stomach pains caused by my kidneys became affected and suffered constant back pains."

"I watched local endorsements of Konjola and decided to give it a trial. I noticed a change while I was taking the first bottle so I continued the treatment. Today the pains of rheumatism have entirely passed. I am my limbs freely and without effort. The stomach and kidney ailments have gone the way of my rheumatism. I no longer suffer from constipation. Even head catarrh which bothered me for years has been relieved by the new medicine."

The files of Konjola contain many such instances. Konjola is free from alcohol, nerve-deadening drugs and heart-depressing chemicals.
